## Activity

### Co-Curricular Activity/Extra Curricular Activity:

Numerous co-curricular and extra-curricular activities are conducted in the school for the all-round development of students. These activities are supplementary to classroom education. However due to the implementation of NEP 2020, there remains no solid distinction between what is curricular and what is extra-curricular. Everything is now part of the curricular because everything happens within the school. The school conducts different activities through clubs. There are clubs such as the Book Club, the Health and Wellness Club, the Eco Friendly Club, the Chess Club, the Music Club, the Drama Club and so on. The school conducts different activities like talent shows, poetry recitation, book readings, plays, chess competitions and so on. Apart from this, there is the integration of these practices in the classroom which makes the teaching-learning process fun and interesting. The goal of these activities is to strengthen cognition, understanding and retention among students. The focus is on competency, skill development, analytical thinking, problem solving and the overall holistic development of the students. With initiatives like bagless day, extra curriculums have truly become a part of school curriculum. The school also celebrates 'Ek Bharat Shreshtha Bharat', 'Vigilance Week' and days like International Yoga Day, World Environment Day, World Bicycle Day, Mother's Day and so on.
